

SUCCESS **OAS** *7th Grade Math* *with*

Oklahoma Academic Standards

absolute value	formula	range
algebraic expression	fraction	rate of change
algorithm	geometric figure	ratio
area	graph	rational number
associative property	grouping symbols	rational-valued length
attributes	histogram	rectangular prism
axis (axes)	inequalities	reflection
box plot	integers	relative frequencies
capacity	interpret data	representation
central tendency	interquartile range	rotation
circle	inversely proportional	sample space
circle graph	linear equation	scale
circumference	linear inequality	scale drawing
commutative property	mean	scale factor
compare	median	side
composite figure	mode	similar figures
constant of proportionality	net	similarity
conversion	non-negative number	slope
coordinate plane	order of operations	spread
coordinates	origin	square unit
data	outcome	surface area
decimal	percent	symbol
diameter of a circle	perimeter	table
dilatation	$pi = \pi$	terminating decimal
distance	pie chart	theoretical possibility
distributive property	prediction	transformation
equations	probability	translation
equivalent	properties of operations	trapezoid
estimate	properties of similarity	unit pricing
experiment	proportional reasoning	unit rate
exponent	proportional relationship	variable
exponential form	proportions	vertices
expression	quantities	volume
