

Oklahoma Academic Standards

acute triangle
algebraic expression
approximation
associative property
average rate of change
base
biases
central tendency
commutative property
compare
consecutive positive integers
contrast
coordinate plane
cylinder
data display
data point
data set
decomposition
dependent event
dependent variable
distance
distributive property
dynamic software
equation
equivalent
experimental probabilities
exponent
expression
formula
fraction
function

graph
graphical properties
grouping symbols
height
horizontal
independent event
independent variable
inequalities
infinite / infinitely
informal line of best fit
integer
interpret
irrational
like terms
limit
line
linear
linear function
linear inequality
linear relationship
nets
obtuse
order of operations
outlier
percent
perfect square
perfect square root
 $\pi = \pi$
point
probability
product

properties of operations
proportional relationship
Pythagorean Theorem
rate of change
rational number
real number
rectangular prism
relative frequencies
right cylinder
right triangle
sample
scatter plot
scientific notation
simplify
slope
solution
spread
square root
substitution
surface area
symbol
table
three dimensional
two dimensional
variable
vertical
volume
x-axis
x-intercept
y-axis
y-intercept
